Dermaroller

IN THE PRESS

Vanity Autumn 2010

The journalist reviews Genuine Dermaroller™ after her first treatment in a piece about sun-damage:

"The amazing results have proven successful in getting rid of lines, wrinkles, sun-damage, pigmentation, acne scars and stretch marks. Two days later I looked much fresher with a radiant and even complexion."

Absolute Brighton September 2010

In an article on Becky Hollands Aesthetics, it said of Genuine Dermaroller™ Therapy™:

"This treatment is a non-surgical solution to skin regeneration and repair. As there are no foreign substances entering the skin it is a less aggressive alternative to chemical peels and laser treatments. Requiring no 'down time', the dermaroller is a fantastic solution for the repair of acne scars and for the regeneration of the face, neck, hands and for the treatment of stretch marks."

Ask the Expert: Ageing September 2010

In a feature titled 'Beauty is only pin deep', Fashion and Beauty Editor Sarah Hecks said following her first Genuine Dermaroller™ treatment:

"Although my face was quite red the next day, it was nothing make-up wouldn't cover. During the next week my skin felt dry and started flaking. But Dermaroller is not a quick fix - it takes up to six weeks to see the full benefits and three treatments are recommended, and Sach tells me five treatments are recommended for acne scars and stretchmarks. So, do I look like Angelina Jolie? Well, I'll never have her lips or her husband BUT three weeks in and I am definitely one step closer to having her glowing complexion - my skin looks so much fresher and younger and my sun-damage is a thing of the past. I can't wait to see the final results in a few weeks."

IN THE PRESS

Raring to go, Scotland, August 2010

In an article on Aspire Aesthetics in Aberdeen, owner Linda Strachan told the magazine:

"Genuine Dermaroller™ Therapy™ can significantly improve acne scars, sun-damaged skin, facial and decollete lines and stretch marks. It can also provide a lift to ageing skin without the need for invasive surgery by stimulating the body to produce collagen and elastin in response to the micro-needling treatment."

Cosmetic News

August 2010

In the 'Product News' section of their newsletter, in an article announcing the Dermastamp, they wrote:

"The new micro-medical skin-needle device is designed to complement Genuine Dermaroller™ Therapy™ and is used for the treatment of isolated and deeper atrophic scars and lines. Using high quality 2mm micro-medical skin needles in a 5mm diameter circular arrangement, the Dermastamp is perfect for skin regeneration and scar repair for these previously difficult to treat areas."

IN THE PRESS

The Daily Telegraph Weekend Magazine, 50 Ways to Look Younger

January 2010

Genuine Dermalroller™ Therapy™ was positioned at number ten in their round up of the best anti-ageing beauty and health treatments

"It's the latest treatment in what might be called the 'brutal beauty' movement and involves having a finely spiked roller passed repeatedly across your delicate facial skin. It may seem a bizarre way to enhance its texture but, once the skin's repair-processes have kicked into action, generating new collagen and elastin, you'll reap the benefits of finer, brighter, smoother skin. Not cheap, but many women swear by it."

Can these gadgets REALLY make you look younger?

December 2009

The Home Meso-rejuvenation Genuine Dermalroller™ was featured in their article on new space-age anti-ageing gadgets

"The latest gizmo to make the headlines is a roller covered in tiny needles. It's a watered-down version of a professional treatment which pierces your skin with thousands of tiny holes to stimulate collagen production. This stimulates the epidermis and allows your anti-ageing skincare products to penetrate deeper. Regular use will improve the appearance of skin,"

attitude Rocknrolla

December 2009

Genuine Dermalroller™ Therapy™ was showcased in their feature on the latest skin needling devices

"In spite of its off-putting design, it's actually infinitely safer than the common practice of injecting a muscle paralysar into your brow or shedding dead skin with chemicals. There is also considerably less 'downtime' with the Dermalroller (you're basically a bit red for 24 hours after the treatment) compared to the week-long Sith Lord complexion that comes with chemical peels... The Dermalroller – both the professional and home use version – presents something of a breakthrough."

Pins and Needles... The Latest Way to 'Roll' Away the Years

July/August/September 2009

In a feature on skin needling

"Dr Patrick Treacy is a firm advocate 'I am a long time favourer of the procedure. One notices a very pleasing improvement in a patient's skin about six weeks after the treatment. Genuine Dermaroller™ Therapy™ will be a treatment I can confidently recommend to my patients.'"
